CAN CONVERTER UNIT

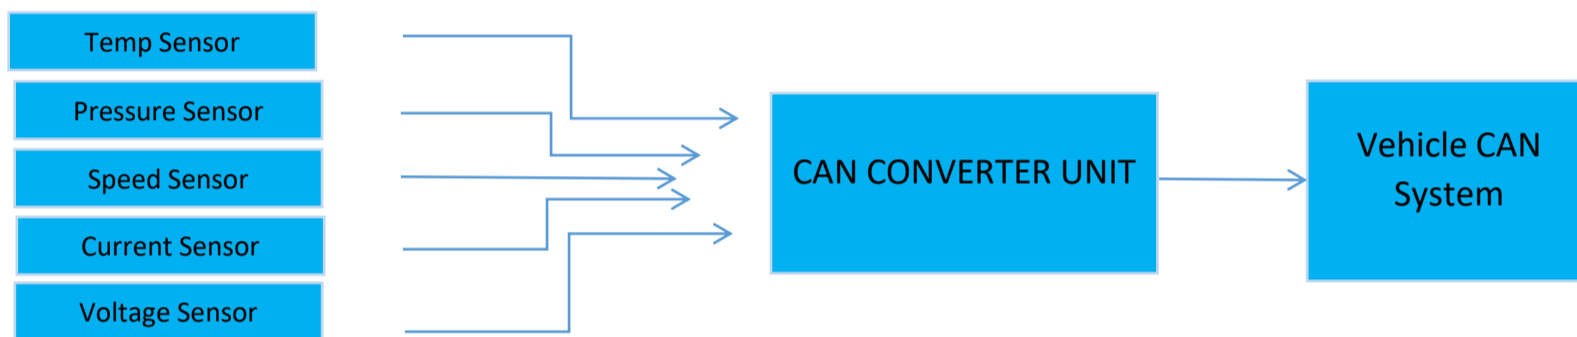

Fig: CAN Converter

Approvals & Compliances

Sensor Details:

Product Details:

Product Short Name : CAN CONVERTER
 Model number : UNIM-Charger Series
 Part number/Article Number :UNIM-CAN-10DIO/ADC

Product Description:

- CAN CONVERTER integrates the NON CAN Signals to CAN format.
- This will reduce the Wire length and Signal drop due to wire resistance

Technical Specifications:

	Typical Value	Unit
Input Voltage	+5	V
Output Power	Wire CAN	W
No of inputs	Upto 10 DIO	A
CAN Speed	up to 2 Mbps	baud rate
Auto Grade Available		%

Features and Benefits:

- ❖ Analog & Digital Input Compatible
- ❖ 5V Operation
- ❖ Reduces Vehicle Wiring harness
- ❖ Fault Detection available
- ❖ Broadcast mode / Request Mode
- ❖ 31939 Standard Compatible

Typical Applications :

Suitable for all EV Products :
